

No Chlor | Sali della Vita®

OXYGEN NO-CHLOR LINE

This is the quality line of the "Sali della Vita" range. It is aimed mainly at private swimming pools and SPAs where the customer wishes to use natural Chlorine-free products.

- **ACQUA MADRE:** A biostabilized saturated solution. A mixture of Magnesium (Mg), Potassium (K), Iodine (I) and trace element mineral salts. I Sali della Vita, dissolved in swimming pool and SPA water reproduce the health qualities of alkaline magnesium thermal waters.
- **BIOZONO Ag+:** A biocide based on natural peroxyacids, silver and polyquaternaries; with a stabilized pH; a single product for four uses: for indoor and outdoor pools.
- **BIOSTART:** A balanced mix of Magnesium (Mg), Potassium (K) and Sodium (Na) mineral salts in granular form, and essential trace elements for the reconstruction of homoeostatic solutions for use in swimming pools.
- **BIOSAN:** A super concentrated bactericide and algacide with a lightening effect.
- **BIOACID:** A natural pH corrector with a buffered and bactericidal effect.
- **CHRONO PUMP:** a programmable pump for dosing Biozono Ag+; for pools of up to 400m³.
- **ENG-OXI PUMP:** a peristaltic pump for dosing Biozono Ag+; for pools with volumes of less than 120m³.

ACQUA MADRE

CODE	DESCRIPTION	PACK.	PALLET

061216058	ENG-OXI 230V PERISTALTIC PUMP - 1.5 L/H, 1BAR

No Chlor | Sali della Vita®

EASY POOL KIT

The EASY POOL KIT swimming pool water treatment system is completely new as far as the chemical treatment of small, private swimming pools is concerned. It is a complete disinfection and maintenance treatment of the swimming pool which is completely Chlorine-free, practical and safe. The system consists of four different chemical products:

BIO-OXI - A special stabilized peroxide based formula. It guarantees the complete elimination of bacteria and organic substances found in the pool.

BIOSAN - A mixture with a strong antibacterial and anti-algae effect, based on super concentrated natural polymers and biopolymers. It keeps your pool perfectly clean and clear.

BIOACID - A pH acid corrector with based on buffered inorganic acids and mineral salts. With Magnesium and Potassium. Its special balanced formula reduces the presence of organic pollutants and keeps the bacterial flora and algae under control.

BLU DELUXE - A very highly concentrated algaecide. It prevents and combats the algae and acts against fungi and bacteria. Its action is extensive in combating the infesting micro flora and in particular on black algae, micro algae and macro algae.
